

COVID-19 Vaccination Planning

Mississippi State Department of Health

COVID-19 VACCINATION PLANNING

- CDC Playbook released September 16, 2020
- Mississippi's plan submitted to CDC October 16, 2020
- Working on assumptions and continues to be fluid
- Processes are similar to the Vaccine for Children Program
- Other vaccine(s) will be shipped from McKesson
- Ultra low cold chain vaccine will be shipped direct from Manufacture for vaccines
- Providers will be enrolled.

COVID-19 VACCINATION PLANNING

Prioritization and Cost of Vaccine

- Initial vaccine allocation will be limited
- 3 Phased approach
- Critical Healthcare employees will receive the first doses
- Equitable distribution
- ACIP recommendations will drive distribution (forthcoming)
- No cost for vaccine
- Administration fee for vaccine
- HRSA will be covering the uninsured

COVID-19 VACCINATION PLANNING

Enrollment Agreement

- All providers must sign the CDC Enrollment Agreement
- The CDC Enrollment Agreement outlines requirements
 - Must administer in accordance with ACIP recommendations
 - Within 24 hours of administering a dose, provider must enter the information into Mississippi's immunization registry, MIIX
 - Vaccine is provided by the federal government and organization may not seek reimburse for the COVID vaccine
 - Must vaccinate regardless of person's ability to pay an administration fee.
 - Must provide a Vaccine Information Statement (VIS) or Emergency Use Authorization (EAU)
 - Must comply with CDC vaccine management – Cold Chain
 - Must report adverse reactions
- Redistribution Agreement
 - This will allow you to redistribute vaccine within your organization.
 - Organization is responsible for all cost and cold chain requirements of redistribution.

COVID-19 VACCINATION PLANNING

Enrollment Agreement

- Providers with multiple locations will complete Section A and be signed by Chief Medical Officer and Chief Executive Officer
- Section B should be completed by each of the organization's locations (clinics, practices, facilities, pharmacies)
- Providers must use the Mississippi Immunization Information eXchange (MIIX) for ordering and entering vaccinations administered.
- Vaccine orders and inventory will be tracked through MIIX

COVID-19 VACCINATION PLANNING

Mississippi Immunization Information eXchange (MIIX)

- MIIX is Mississippi's Immunization Registry.
- All COVID vaccines that are administered will have to be recorded in MIIX.
- To request MIIX user access you can complete a MIIX user agreement. As a vaccine administering organization you will need read/write access.
- To update the access level of user from read to read/write. Complete another MIIX user agreement.

COVID-19 VACCINATION PLANNING

Things To Do Now

- Determine who your leads and contact people will be for the vaccination effort.
- Look at your critical staff and determine how you will distribute it in your organization (abiding by ACIP recs)
- Once Enrollment Agreement is released, complete for your organization and have each site (that will receive and administer vaccine) complete the provider profile. These documents should be submitted together.
- Tips for completing enrollment will also be released with the enrollment agreement.
