Madison, MS 39110

Re: Hospital Reporting

Dear Hospital Administrator:

We have been informed that Mississippi Hospitals are required to report to the HHS new Teletracking system. The Mississippi State Department of Health (MSDH) will work to modify the state reporting system (Knowledge Center) to meet the new standards but no timeline is currently available. Until completed, hospitals must continue reporting to both HHS Teletracking and MSDH daily. Thank you for your assistance!

Respectfully,

Glenn D. Wood, RN
Director / Nurse Manager
Health Facilities Licensure & Certification
