GUEST EXPERTS

Christina A. Rostad, MD
Emory University School of Medicine,
Department of Pediatrics & CHOA

Evan J. Anderson, MD
Emory University School of Medicine,
Departments of Pediatrics & Medicine, & CHOA

Matt Oster, MD, MPH
Emory University School of Medicine,
Department of Pediatrics, Children's Heart
Center & CHOA

OBJECTIVES

- To review pathophysiology & epidemiology of MIS-C in pediatric patients with COVID-19
- To differentiate a diagnosis of MIS-C vs. other similar diseases (Kawasaki, etc.)
- To discuss different approaches for managing MIS-C
- To discuss the guidelines for the new pediatric COVID-19 vaccine and understand the results of safety and efficacy testing in children.
